# Judging sheet - Generic sheet

Check health and welfare before judging. Animals with signs of illness, injury or parasites, and pregnant or nursing females, are disqualified and not scored. Tenrecs in or close to torpor are not judged. Give each animal time to settle and never force it to unroll. Score each part up to the maximum shown, and write down a short reason for every deduction. Health always comes before appearance: never reward an animal for colour or size if its condition is poor. Clean hands or gloves and the table between animals.
